

VDACS Voluntary Registry of Compliant Edible Hemp Products

Products on this list have been reviewed by VDACS for compliance with July 2023 laws for Edible Hemp Products. Manufacturers/Distributors listed have agreed to ensure the products on this list are compliant. At the time of review, these products were found to be compliant with Virginia laws and regulations. Retailers continue to be responsible for ensuring any products they sell are in compliance with all current laws.

Date Added	Manufacturer/Distributor <small>(As Stated on the Label)</small>	Product Name	City	STATE	Contact Name	Contact Info Phone	Contact Info Email

NOTICE: If the manufacturer or distributor listed here has distributed non-compliant products (such as products missing a batch code, or products with COAs indicating legal violations), the retailer will not be protected from civil penalties if such products are found for sale or present in the retail facility. It is recommended to discuss this potential scenario with the manufacturer or distributor before purchasing any products.

Tips for compliance with the law:

- Be sure that your location has a Hemp Retail Facility Registration if you offer regulated hemp products for retail sale - this is required by law to sell ANY edible hemp products.
- Be sure that you have submitted your Edible Hemp Products Disclosure Form - this is required by law to sell ANY edible hemp products.
- Be sure that you are either under Food Safety Inspection (by VDACS or VDH) or submit the Exemption form certifying that you are exempt from routine Food Safety inspections (sell prepackaged foods only).
- Verify that you can access the Certificates of Analysis for each product offered for sale.
